The People & the People's Rights CADIX, OHIO

W FINESDAY, DECEMBER 1, 1852

Next week we shall publish some statements made to the Harrison County Agricultural Society.

Our Absence.

During the past two weeks we have been absent from our post, attending to procuring Fay some new type, &c., in Cincinnati for our of. Fra fice. We are now at home again just before Full out paper goes to press. Next week we Gen shall probably have something to say about Gre our trip. Our readers need not look Gue for much editorial this week, for we have not time, and are not much in the humor of writing at any rate. Hereafter we shall try and make up for all past deficiences.

Congress meets on next Monday. We shall probably delay our paper a day or two next week, in order to give our readers the President's message.

We must have, and cannot get along with- Mai out it. We have went to some \$3 or \$400 Mai additional expense within the past two weeks in procuring material for our office, Me and money must be paid for it, and that too, Mi soon. We cannot meet this demand, unless Mo our patrons come forward and pay us what Mo they owe us. The amount is small to them. Mo but a little from each of our delinquent pat- Mu rons will make a large sum for us. We ap- Not pea to the Democracy of Harrison county Otta to sustain and assist us in this our time of Paulding, seed. Shall we be disappointed? or shall Pickaway. we suffer on account of your delinquency? Pike, Come friends, come along right away.

CHANGE OF ADVERTISEMENTS. - Next week Putnam, we shall "set up" our advertisements in new Richland, type. Those of our patrons who wish to Ross, have their advertisements changed, can do Sandusky, so by handing them in between now and Senera, Shelby.

Onto FARNER.-This is a valuable agri- Stark, cultural paper published in Cleveland, Ohio, Trumbull, by Thomas Brown, at the extremely low Tuscarawas, price of \$2 per annum in advance. The Union, Farmer is the best agricultural paper that Vanwert, we know off, and we should be pleased to Warren, see it have an extensive circulation in this Wash county. Send in your names early, as the Wayne, volume commences the first day of January. Williams,

Their of Total, fice is in the old stand formerly occupied by Official Returns of the Vote for been heard from, and the result is as follows: Rev. J Moffit. They are both good Dentists, and should receive a liberal support from our citizens.

Lecky Harper, Esq.

The friends of this gentleman, we learn, are making use of his name in connection with the Post Office at Pittsburgh. We have known Mr. Harper for a number of years, and know him to be a man of superior abili ies and a firm and unwavering Democrat. As Elitor of the Post, one of the ablest papers in Pennsylvania, for some eight or nine years past, he has done veoman service in the good old can-e. He would make a cap-ital Postmaster—is endowed with the essenind prerequisites, "honesty, capacity, fideli-"," and is certainly entitled to the honor a friends desire to confer upon him .-- Ohio

We can endorse every word the Pa es about our friend Harper.

-al advertisements have been delext week. Among others one nd, A F. Moore, of the Premium g store, who has just made up another supply of Winter Clothing. Go to re's to get cheap bargains.

Where is the Money.

The last session of Congress appropriated \$500,000 dollars toward erecting the wings of the capital, and yet we learn that this is all expended, and some five hundred hands have been dismissed for the want of funds to keep them at work. We cannot see how this large amount has been expended in so short a time, unless a large portion of it has gone for building meterial. Is this the case or has there been some more Galphinisms committed at the seat of government? It would be well for the next Congress to in quire into the matter .- Plaindealer.

For Free Sliders. Here's a little hit for the benefit of Tilden Brigge, and all other free sliders. We clip the choice bit from a Massachusets paper, the Bedford Journal, It is wrong in the Journal to say that free soilers suffer themselves to be hitched on to the tail end of the whig party. They are properly termed free sli-ders; who aspire to that position. Let us call things be their right names .- Plaindea'.

"Our friend Smith, the Jeweler, two doors north of the Journal office—who by the way is one of your ultra, indomitable, good-natured free soilers—remarked to us yesterday morning, that the free soilers who were induced to be bitched on to the tail of the whigh party, reminded him of the Irishman that pensee is 1811. of the train, the conductor having refused him an inside passage, and at the end of his The official vote in New Jersey is as fol-journey, to his after surprise, found nothing lows: Pierre, 44,213; Scott, 28,540; Hale, was left of the animal but the horas." 258; Broome, 313.
